GVX Blast System

Comfort, Safety, Productivity all with Head, Face and Respiratory Protection for the total blast solution.

Made in the USA

Protection, Comfort & Style.

Blasters feel confident wearing the G VX Respirator knowing their head, face, and respiratory system are protected while working in the harshest environments. Key G VX features include an enlarged viewing area for optimal vision and maximum airflow delivering cooling for all-day comfort. Looking and feeling good is a must for every blaster and that's why we offer the G VX in four distinctive colors: Vintage Yellow, Modern Navy, Imperial Red, and Bullard Green.

Cape Choices for the Way you Work

Full-bib capes attach within seconds to the G VX Helmet. Choose from cape or parka styles in 840 Denier Coated Nylon materials in 28" or 38" lengths. Capes are available in Grey only.

Versatility Defines the G VX

Blast Suit, Gloves & Lite VX

BCX Communication System

AC1000

Blast Must-Haves

Choose our heavy-duty blast suit, gloves, and Lite VX designed for the toughest blasting environments. Our blast gear is feature-rich, long-lasting, and comfortable. Add the BCX hands-free, wireless communication system to stay connected on worksites with your team. Safety, productivity, and comfort define the G VX Respirator.

Stay Comfortable

Bullard offers unique options in cooling. Stay cool or keep warm, whatever climate you choose, we have a flow control solution for you. Our AC1000 cools incoming air from a compressed breathing air source, while our Frigatron is designed specifically to work with our Free-Air® pumps. If blasters prefer cooling to both their helmet and torso, we offer the Dual Cool Vest.

Sizes to Fit All

Comfort is key in all our products, which is why our breathing tubes are available in two sizes to accommodate the different height requirements workers need.
