

L4 LIGHT

ADVANCED HELMET LIGHTING SYSTEM

ISO9001
CERTIFIED COMPANY

Advanced vision

As you know, blasting in the dark is awkward and dangerous. How can you ensure your workers have enough light to clearly see what they are doing? The RPB® L4 Light is your solution, as it provides a steady, highly concentrated output of light to your field of vision.

The RPB® L4 Light was developed to overcome the global need for light to assist blasters in tanks and other confined spaces where light is scarce. It mounts securely to the top of the RPB® Nova 3® Respirator, providing light wherever the operator looks. This also eliminates the safety risks associated with the outdated and inefficient nozzle lights.

MINIMUM PROTRUSION

Unlike the cumbersome lights currently available on the market, the RPB® L4 Lights low profile design allows for greater operator control.

Manufactured with durable,
long-lasting materials

Efficient, high powered LEDs
producing up to 500 lumens
of concentrated light output

Mounts directly
to the Nova 3®
with no
modification
required

Comes with 5
pre-set brightness
settings

Made in USA.

Long lasting Li-ion battery provides
up to 12 hours on a single charge

Batteries recharge in 3-4 hours

Light-weight battery pack
that mounts on your belt

Field-replaceable outer lens

Also available from the RPB® product range:

RPB® NOVA 3®

It is paramount that your blasters have the best equipment to obtain maximum productivity. How can you increase productivity and advance your safety?

The RPB® Nova 3™ is an advance on the RPB® Nova 2000™ in comfort and functionality. It can also be customized to suit individual needs, further enhancing employees' performance. It meets worldwide safety standards worldwide including NIOSH, ANSI Z87.1 -2010+, ANSI Z89.1 -2012 Type 1.

RPB® RADEX FILTER™

Polluted air can be the cause of major health issues, so how can you improve the quality of the air your employees are breathing?

The RPB® Radex™ Airline Filter exceeds industry filtration standards so you can be assured that your workers won't suffer the consequences of breathing contaminated air. The Radex Airline Filter is fitted with a large capacity, 6-stage filter cartridge that removes moisture and particulates to 0.5 micron and odor from the compressed air stream, providing clean, breathable air.

RPB® C40 CLIMATE CONTROL DEVICE™

Working in an environment where the temperature is comfortable is key to maximizing productivity. So how can you ensure that your employees are productive?

Your solution is the RPB® C40™, which can heat and cool your supplied air as desired. With the slide of a lever, your employees can switch from heating to cooling ensuring they are always comfortable.
